Opportunities for the future

Bridging Business and Community

Mosholu Montefiore Community Center (MMCC) understands what it takes to be successful in the workforce. We screen, train and evaluate every intern and place them on a path that leads to success in the workforce. Businesses can depend on us as a resource for talented and skilled interns and potential employees. Our internship participants are PAID through funding from the NYC Department of Youth & Community Development, at no cost to the businesses we serve.

What We Do

Since 2008, the Education Counseling Center has been dedicated to carrying out this mission for young people ages 17-24 through job training and certification programs, high school equivalency classes & GED testing, internship & job placement, and other supportive services designed to help young people succeed in the workforce and post-secondary education.

MMCC Mission

The Mission of MMCC is to improve the lives of Bronx and Manhattan residents with our dedication to humanitarian efforts; reaching out to a rich tapestry of cultures, building gateways to success through quality service and programs, building confidence, sustainability, and working toward self-sufficiency for individuals we serve.

Feel free to schedule a visit of our programs and meet our staff and students. In addition, we would be happy to provide you with a list of our current and satisfied partners.
